

**Chen Minyue** – a student at the Faculty of Pedagogics and Psychology of Childhood having specialized in “Theory and Methods of Education and Upbringing (by fields and levels of education)” (General Pedagogy, History of Pedagogy and Education).

My name is Chen Minyue. I am a student at the Faculty of Pedagogics and Psychology of Childhood having specialized in “Theory and Methods of Education and Upbringing (by fields and levels of education)” (General Pedagogy, History of Pedagogy and Education).

I will be returning to China in the near future. I have spent a pleasant and fruitful semester in Belarus and I would love to share my experience. The very first day I came to the university, I felt the enthusiasm of the International Relations Department. The Head of the Department and his co-workers patiently explained to us the relevant rules, procedures, and helped us integrate into the student community. In this process, they did not show any bias, discontent or impatience towards us because of our imperfect language skills. Thanks to the assistance of the Department, the beginning of our stay in Belarus was smooth and enjoyable.

This semester has been full of unforgettable and touching events that made me feel that the university cared about them. Among the most unforgettable events I would like to mention the following:

- The celebration of the university’s 110th anniversary. In order to give us the opportunity to see the performance and rejoice in the pleasant atmosphere, the university assigned educators to take us to the venue and help us find suitable seats.

- We have also diligently studied the subjects taught at the university. The teaching standards are high. Most teachers have scientific degrees and exhibit their profound knowledge. Communication with them has been a superb opportunity for us to obtain high-quality education. I would like to express my gratitude to my teachers. They are agreeable and kind, their teaching methods are flexible, lively and interesting. They have given me a new perspective on understanding the concept of “learning how to learn”.

- The dormitory staff helped us keep the place clean and tidy so as to make the living conditions hygienic and comfortable.

There are so many more sweet memories I would like to share, but the words will not suffice to express my sincere gratitude to my teachers and Mogilev State A. Kuleshov University. It is due to your hard work and meticulous arrangements that we can study and live happily in such a remote exceptional country with a rich culture that differs from ours! I would be glad if all the wonderful people I have met visited China and I wish all the teachers success in their work. Let Mogilev State A. Kuleshov University develop and prosper!
