

The name of the academic discipline:
“Methodology for the formation of logical thinking in primary school students”

Specialty code and name	1-01 02 01 Primary Education
Year of study	4
Semester of study	8
Number of in-class academic hours:	46
Lectures	16
Seminar classes	–
Practical classes	30
Laboratory classes	–
Form of the current assessment (<i>credit/ graded credit /exam</i>)	credit
Number of credit points	3
Competences	SC-5. To teach solving text problems based on the use of various methodological techniques.

Summary of the academic discipline:

The academic discipline “Methodology for the formation of logical thinking in primary school students” is aimed at teaching students the methodology for the formation and development of logical thinking in primary school students in the process of studying mathematics. When studying the academic discipline, special attention is paid to students gaining knowledge about the main areas of the teacher’s work on the formation of logical and mathematical concepts in primary school students, building correct conclusions, and teaching students to solve logical tasks.
