

**The name of the academic discipline:
“Epidemiology and Hygiene”**

| | |
|---|--|
| Specialty code and name | 1-80 02 01 Biomedical Science |
| Year of study | 4 |
| Semester of study | 7 |
| Number of in-class academic hours: | 98 |
| Lectures | 52 |
| Seminar classes | - |
| Practical classes | 38 |
| Laboratory classes | 8 |
| Form of the current assessment (<i>credit/graded credit /exam</i>) | exam |
| Number of credit points | 6 |
| Competences | Mastering the academic discipline “Epidemiology and Hygiene” should ensure the formation of specialized competencies: being able to conduct work on analyzing the state of public health in order to assess and predict the state of health of the population. |
| <p style="text-align: center;">Summary of the academic discipline:</p> <p>The academic discipline “Epidemiology and Hygiene” is a system of knowledge about the general patterns of occurrence, development and decline of the epidemic process of infectious diseases, the basic principles of prevention and control of these diseases.
