To know the basics of intercultural communication, respect the history and values of your country and the countries of the target language. To improve the skills of interpersonal communication, interaction, value orientation in the world. To be capable of self-development and improvement in professional activity.

**Brief content of the academic discipline:**

The subject matter of the discipline "Foreign language" includes the study of the spheres of social and everyday communication (chapters "People and society" and "People and places"), socio-cultural communication (chapter "On the world map"), as well as educational and cognitive spheres (chapter "Higher education").

The study of grammatical material is based on the communicative and structural-functional approach, paying attention to speech structures used in a particular sphere of communication. The study of pronunciation is carried out within an acoustic approach, the main focus is on improving auditory-pronunciation skills based on imitation exercises in the context of communication situations.
