Brief content of the academic discipline:	
<p>The structure of the discipline "Theatre-playing activity practice" is systematic and includes three interrelated levels of consideration of the organization of theatrical and playing activities of preschool children. The first level is theoretical and methodological - theory, history of theatrical art, theoretical foundations of theatrical pedagogy. The second level - theoretical and methodological - is a consideration of the possibilities of theatrical art and theatrical activity in the aesthetic and creative development of a child, the possibilities of educating a child by means of theatrical art. The third level (instrumental) includes mechanisms for mastering methods and techniques for introducing preschool children to theatrical activities, mastering the basics of puppeteering, the basics of stage skills, technologies for making various types of theatrical puppets, organizing theatrical and playing activities of children in a preschool educational institution.</p>
