Competencies to be formed	To characterize the main stages of the development of Russian literature in the XI – second half of the XIX century. in terms of the generic and specific affiliation of artistic works, the peculiarities of their poetic and stylistic organization. To take into account the methodological foundations of Russian literary and critical thought, the conditions of its formation and development in the analysis of literary works
Summary of the content of the academic discipline:	
<p>The discipline “History of Ancient Russian literature and literature of the XVIII century” is part of the module “History of Russian Literature”. The educational material is structured in accordance with the principle of systematic and conceptual study of Russian literature, revealing the main trends and features of the development of the literary process: literary directions and trends, ideological-thematic, genre and artistic-stylistic features of works. An understanding of the general trends in the development of ancient Russian literature and literature of the XVIII century is combined with a monographic study of the works and creative individuality of the most significant writers. Special attention is paid to the historiography of Russian literature of this period, theoretical problems and modern interpretation of literary classics.</p>
