Summary of the content of the academic discipline:

The discipline “Foreign language” is a part of the state component of the educational process. Studying this discipline students rely on the knowledge and competencies acquired in the course of the study of native and foreign languages in secondary school, as well as to use a wide range of transversal skills and meta-disciplinary competencies. The content of the discipline “Foreign language” provides instruction in all types of speech activity in a foreign language necessary both for professional activity as a foreign language teacher and for interpersonal communication in real-life situations of speech communication.
