<b>Competencies to be formed</b>	To characterize the main stages of the development of Russian literature in the XI – second half of the XIX century in terms of the generic and specific affiliation of artistic works, the peculiarities of their poetic and stylistic organization. To take into account the methodological foundations of Russian literary and critical thought, the conditions of its formation and development in the analysis of literary works
<p><b>Summary of the content of the academic discipline:</b></p> <p>“History of Russian literature of the first half of the XIX century” is a part of the module “History of Russian Literature” of the state component. The structure of the discipline reflects the connection of the literary process with the socio-historical development of society, takes into account the immanent patterns in the development of literature, the nature of relations with the national literary tradition and world literature. The understanding of the general trends in the development of Russian literature in the first half of the XIX century is combined with a monographic study of the works and creative individuality of the most significant writers. Special attention is given to the historiography of Russian literature of this period, theoretical problems and modern interpretation of literary classics.</p>
