Summary of the content of the academic discipline:

Culturology occupies one of the central places in the socio-humanitarian education of a modern student. It makes a significant contribution to the formation of intercultural tolerance, patriotism, a value-based attitude to world and national cultural traditions, and contributes to the successful inculturation and socialization of the individual. The goal of the educational discipline "Culturology" is to form in students a holistic understanding of the essence, structure, types of culture, patterns of historical development of world and Belarusian culture, the functioning of culture in society and the role of the individual in the sociocultural process.
