Brief content of the academic discipline:	
The academic discipline «Foreign language» is included in the state component of the linguistic module educational process. This module provides the formation of communicative competence in its broad sense: the discipline «Foreign language» contributes to the improvement of interpersonal and intercultural interaction skills, implements a competence-based approach, and is aimed at developing the foreign language communicative competence of the future specialist in the intended areas of his professional activity, as well as the use of a foreign language in cognitive activity. The implementation of the principle of social and humanitarian education interdisciplinarity and integrativeness ensures the integrity of the study of humanitarian knowledge and its relationship with the social context of the graduate's future professional activity.
