| <b>Competencies to be formed</b>   | To possess a modern culture of thinking, a humanistic worldview, an analytical and innovative-critical style of cognitive, socio-practical and communicative activities. To use the basics of philosophical knowledge in direct professional activity, independently assimilate philosophical knowledge and build a worldview position on their basis. To know and adequately evaluate the most important achievements of the national culture, to be a true patriot and citizen of your country. To be able to work in a team, to perceive social, ethnic, confessional and cultural differences with tolerance |
| <b>Summary of the content of the academic discipline:</b>  |  |
| The philosophy study is focused on mastering by students the heritage of world and domestic philosophical thought, the formation of their creative attitude to this heritage, the development of skills of independent philosophical thinking. In this regard, a special task is to study the dynamics of philosophical knowledge in a broad historical and cultural context, the relationship of its evolution with the logic of the development of the spiritual culture of mankind, the philosophical understanding of modern social realities. |  |
