

**Academic discipline:  
«Information Technology»**

<b>Code and name of specialty</b>	6-05-0511-04 Biomedical Science
<b>Training course</b>	1
<b>Semester of training</b>	1
<b>Number of classhours:</b>	70
<b>Lectures</b>	10
<b>Seminar classes</b>	-
<b>Practical classes</b>	60
<b>Laboratory classes</b>	-
<b>Form of current assessment (credit/differential credit/exam)</b>	credit
<b>Number of credits</b>	3
<b>Competencies to be formed</b>	Learning the discipline «Information Technology» should provide the formation of specialized competence - to be able to conduct a quantitative description of medical and biological processes and statistical processing of medical research data, to summarize and systematize the results of the work, using modern computing technology
<p><b>Brief content of the academic discipline:</b></p> <p>The discipline «Information Technology» includes the following sections: introduction, fundamentals of computer science, technical means of computer science, computer science software, computer networks, information security.</p>
